
Theory
Lefebvre's (1991) spatial triad
space is produced where conceived, lived and perceived space meet
Moments
Representations of space
conceived space
verbal signs, codes
and knowledge
Representational space
lived space
images, symbols
and atmosphere
Spatial practice
perceived space
routes, networks
and relations
Cue families
Embedded narrative
Sensory enhancement
Interaction guidance
Observable cues
Caption length
Semantic richness
Video duration
On-screen text stickers
Visual quality
Vertical framing
Hashtag count
Location tag (POI)
Ad label
from macro to micro
